

Benchmark scientific BMS-H3760S

Features

- Digital Control
- From 5-380°C Variable Temperature Setting
- Adjustable speed from 200-1500rpm
- Chemical Resistant
- 6.5" x 6.5" White Ceramic Platform
- Small footprint for labs with limited working space
- Microprocessor control for precise setting
- "HOT" Warning when the hotplate is above 50°C
- Optional temperature probe for more precise temperature control (H3760-TP)

SPECIFICATION

Speed Range : 200 to 1500 rpm

Platform : 6.5 x 6.5 in/16.5 x 16.5 in

Control : Digital

Dimensions : 7 (W) x10.5 (D) x4 (H) in

Electrical Data : 115V, 50-60Hz, 500W
